

# REPAIR KIT

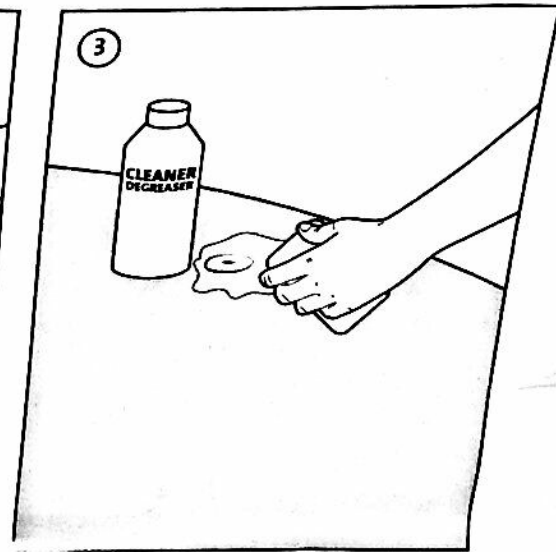

## INSTRUCTIONS HOW TO FIX YOUR ORIGINAL

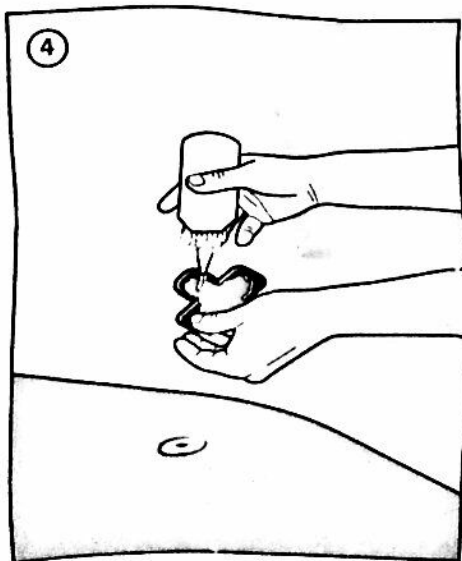

Oh no! A damaged Original!  
What to do now?

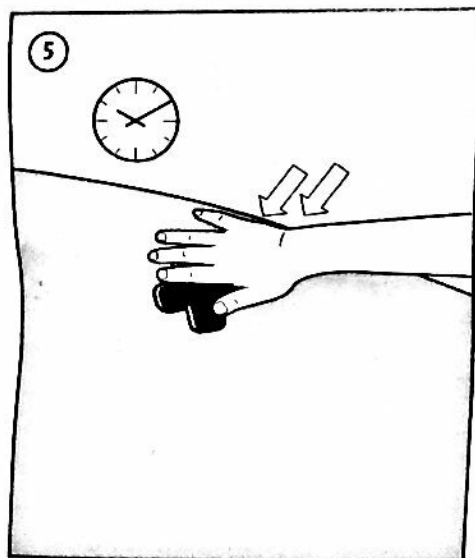

Decide if you want to apply  
the patch on the inside or  
outside. Find the tear and  
mark it.

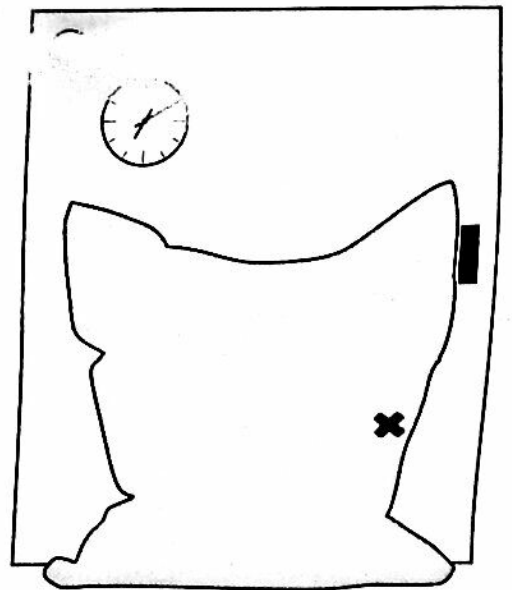

Clean marked area.  
\*If you apply the patch on the  
outside, use your imagination  
and cut it into a nice shape.

Apply glue on the patch.

Apply patch to surface and hold  
tight for 5 min. Allow the glue to  
harden for several hours before  
using The Original again.

And it's ready! Just lay back  
and relax again!
